

ASSET PROTECTION

How to Legally Protect YOUR Assets

WHAT IS ASSET PROTECTION?

We help people bullet proof (protect) their personal assets from lawsuits, judgments and creditors by setting up an asset protecting company/trust structure legally created by lawyers, through Asset Protection Specialists.

Written by lawyers in Australia to protect you against lawyers and their litigious clients.

We are the only licensed Asset Protection Consultant in WA.

Free initial risk analysis (valued at \$330.00)

Having the right structure for your business and investments can also assist in minimising your Tax. The right structure is so important that you cannot afford to leave this to amateurs. If in doubt, ask your accountant what form of asset protection he uses. Please note that off the shelf products may not give you the same level of protection as the ones specially designed for this purpose.

Get it right at the beginning and it could save you thousands in the future.
