

ACCOUNTING

Accounting can encompass many areas and there are overlaps so a thorough knowledge is required covering these many areas.

Professional advice relating to all entities I.e. personal, business, investment, Superannuation, Taxation advice & planning, asset protection & structures

Investment Advice through associated Licensed Planner

Bookkeeping Advice/help A majority of our clients use MYOB and we also use this program for our own internal accounting requirements. We can setup initial chart of accounts specific to your business and can even provide training in need.

Assist you **prepare your business plan**. A business plan should be your plan that is why we assist rather than prepare for you.

Business evaluations and analysis Should you be buying a business we can do an evaluation and do an industry comparison of similar businesses.

If you are thinking about **selling your business** we can also provide an analysis of your businesses Key Performance Indicators (KPI's) and evaluate and industry averages which can enhance the businesses saleability.
